

WHY ARE WE DOING THIS PROJECT?

While discussing the ideas and priorities of the project, our findings showed it is important to design a new project to support African migrants in Europe. The project partners agreed to support African migrants as adult learners to ensure their access to the lifelong learning programs. According to our analysis, we have found the needs for adult educational institutions to have particular attention in designing lifelong learning programs and providing learning opportunities for African migrants to enhance their social competencies.

GOAL OF THE PROJECT

The primary goal is to build partnerships between different organizations from Germany, Sweden, and Ireland to support African migrants and enhance their social competence through lifelong learning programs. The project consists of different activities to support African adult learners and provide opportunities for partnering organizations to share their best experiences and knowledges to enhance social competence of African migrants through educational opportunities.

Support African Migrants in Europe

Project

The project's objectives lie in different components based on our need analysis and our experiences of the partners in the project. The project's objectives interlink with each other and lead us to reach the expected results. The project's main objective is to develop a pedagogical manual (refer it as manual tool) for NGOs, associations, educational institutions and other organizations to support African migrants. The lifelong program is a process of learning and we will provide it for African migrants in different designs, methods and tools. It Mainly seek ways through digital means and learning programs. As lifelong learning evolves, it could be possible in homes, workplaces and community gatherings. We will use it to enhance the social competence of African migrants. The pedagogical manual will also include a road map for organizations which is part of the product. The other objectives of the project lies with the primary purpose and ensure to promote lifelong learning programs. The project partners share their knowledge and improve educational opportunities for African migrants in Europe.

Activities

-Project Management and Coordination: This activity is to manage the project activities, in particular in regards to the logistics , administration and financial managements.

-Transnational Project Meetings (2 Meetings): The first meeting is to have a face to face conversation and talk about each partners activities, project activity and work on an action plan, distribution of tasks, project management, better coordination and communication strategy. In addition to that the project partners also work on achieving the milestones of project, in particular the LTTA and also dissemination of project result activities. The second meeting is to discuss the remaining issues, the milestones and the activity of dissemination of project results.

-Learning, teaching and training activities (ONE LTTA): This activity is there to search for lifelong learning programs and social competence: Targetting African migrants in Europe. During the project, the participants discuss ways and possibilities to support organizations to design lifelong learning programs for African migrants.

-Dissemination of Project Results: In this activity we disseminate the project results to the broadest possible audience of professionals (teachers in general vocational education and adult education).
